Unusually attractive effect is achieved by selection of painted brick wall and wood paneling to decorate this lovely living room.

Greater Livability . . .

More Flexibl

Full dining room may be expanded by removal of divider screen separating it from spacious living room.

Two floor-to-ceiling closets, doubling usual amount of space, add to convenience of this large bedroom. Bay window is nice feature.

Luxuriously large master bedroom is planned to include comfortable sitting room. Big window areas give room sunny brightness.

Planning . . . with Our Component Homes

Island kitchen, with all its modern, built-in features, is homemaker-planned for efficiency, making meal preparation so much easier.

Michal, 15, and Jane, 13, find multi-purpose saw unbelievably fast as it cuts and sizes kiln-dried structural lumber.

A Trip Through Our Plant With a National Homes Family

For a first-hand look at the modern manufacturing methods used to insure the quality of their National home, the Cole Keyes family, of Hinsdale, Illinois, recently visited our Lafayette plant. They were impressed by efficiency of the operations and fine materials used throughout the home.

Chips fly as high-speed routing machine makes precision cuts in pre-finished doors—a sub-assembly operation making possible quick installation of hardware.

On completely-mechanized assembly line, Sheetrock is fastened to structural framing by giant nailer and window openings are cut.

Spray painting, a technique widely used in modern industry, speeds application of two primer coats on doors and trim.

Wall section, ready for erection, comes off one of many assembly lines. Produced on order, it bears number of a special house.

Departure of transports is timed so that houses reach building sites at beginning of work day.

BRAND-NAME QUALITY THROUGHOUT

DUPONT DULUX

CURTIS

Johns-Manville

The quality of every National home is assured by the excellence of the famous, brand-name materials and of the workmanship with which they are produced. This is why National Homes itself has become a famous brand-name and why we are able to guarantee the materials and workmanship supplied by National Homes for one year against latent defects.

National Homes Corporation reserves the right to introduce changes in plans and specifications without notification and without obligation to include such changes in any National homes already delivered. The Company further reserves the right to make changes in materials and "brand-names" from those described in this literature without obligation.
